

Pricing table for Concert Hardware

Prices valid through December 2020

Concert hardware shown below was developed as a joint venture between KLS Percussion and Sigma Expert Solutions. This hardware was developed exclusively for Krista to meet demanding performance requirements. All hardware has gone through extensive testing and a continual design process, resulting in hardware that provides function, ergonomics and usability exceeding what is commonly available. Prices shown below are before shipping costs. Contact Krista for purchase inquiries, availability and the ability to customize or develop new concert hardware.

Triangle Hanger (T1)

Custom made triangle hanger to rest easily in the hand and allow for quick access on and off the stand.

\$20
+Shipping

Triangle Hanger (T2 Pro)

An upgraded version of the T1 with enhanced ergonomics and integrated triangle beater storage. Available in multiple sizes upon request.

\$30
+Shipping

Chime Mallets (C1)

Well-balanced and shaped to guarantee the correct playing angle. These make playing the chimes feel as easy as playing any other mallet instrument.

\$30/pair
+Shipping

Crash Cymbal Dampener

A custom designed system that uses a standard hi-hat stand to mount a crash cymbal and provide for foot operated dampening. The unique design lets the player have one hand free to play bass drum or other accessory instruments. No more slamming your body into the cymbal to dampen it, this custom system will dampen it for you. Includes a custom clutch and dampening ring/cymbal support.
